

REMARKS

Applicant elects Group I, Claims 1-8 drawn to a resistor ladder network with traverse. The search for Claims 1-8 and 9-11 can be made without a serious burden to the Examiner as Claims 1, 4, 5 and Claims 9, 10, 11 of Groups I and II, respectively, encompass essentially the same respective Claim limitations (see MPEP Section 803).

Sincerely,

/J. Krause-Polstorff/

Juergen Krause-Polstorff
